June 1, 1995

Dear Harold,

I have a bad feeling about your records going to Hood College. Perhaps it's mostly intuition, but I have the feeling that they won't be well taken care of there. And they are so important! Mary Ferrell said she's going to turn her records. I can't believe it.

I don't suppose you would think of sending them to Minnesota for good keeping. But they really would be well-protected and appreciated.

I have the terrible fear that your records will start to disappear - in chunks. We really need all of them to straighten out the country and to prevent (1) open fascism, and (2) nuclear war. (Are you aware that we almost died within 48 hours of JFK in an all-out nuclear war?)

I may be returning to the D.C. area - that is if I get the job I'm seeking.

Best for now,

Lisa
